## PRO-PLANTEURS Matching Fund

14.07.2021

PRO-PLANTEURS is a joint project of

PRO-PLANTEURS has prepared the following set of activities – to be used individual or as a package. These activities are intended to inspire members of GISCO in the development of project proposals for the Matching Fund:

### **Diversification of agricultural production and incomes**

*(contribution to GISCOs objectives 1 and 4)*

- Awareness-raising and/or training of local actors (producers, cooperatives and others on diversification, market access and improvement of nutrition
- Development of food processing / food conservation projects to enhance nutrition and / or market access
- Creation of saving and credit groups at farmers level (activity especially for women)

### **Agroforestry / Income for young and women**

*(contribution to GISCOs objectives 1 and 5)*

- Awareness-raising and/or training of local actors (producers, cooperatives and others on agroforestry and related topics
- Market oriented establishment of tree nurseries at cooperative level
- On-site specialized technical advice to farmers who adopted agroforestry systems included monitoring of progress
- Development of gender favourable specialized services for agroforestry (women producing plants, youth providing digital farm monitoring)

### **Improving traceability capacities**

*(contribution to GISCOs objectives 1, 4 and 5)*

- Awareness-raising of local actors (producers, cooperatives and others) on traceability its importance in the value chain
- Support cooperatives in bringing up to date the data-base of their members as a first step of traceability (f. ex. Digitalizing database or including new members on database, codifying cocoa production)
- Support cooperatives in the communication of traceability and sustainability activities (localization of cocoa farms in maps and with regard to forests, exposition of cooperative to human rights risks, etc)
- Development of traceability systems of the 1<sup>st</sup> mile
