German Initiative on Sustainable Cocoa

**The German Initiative on Sustainable Cocoa (GISCO)
is THE platform in the field of sustainable cocoa
in Germany because...**

- 01** ... we pool individual activities of our members and thus, as a strong alliance we speak with one voice;
- 02** ... as a unique multi-stakeholder initiative in the sector we bring different interest groups together and we are committed to the objective to achieve improvements in the cocoa sector in cocoa producing countries;
- 03** ... we identify existing challenges and develop appropriate solution strategies;
- 04** ... as an association we and every single member send the clear signal "We take responsibility";
- 05** ... we offer good networking possibilities within the whole sector as well as in politics and civil society (also at international level);
- 06** ... we offer access to expertise, experiences, best practices and recent expert information;
- 07** ... we offer an ideal framework for active cooperation, stating own interests and contributing to activities;
- 08** ... we support a regular and result oriented exchange of thoughts and knowledge through experts events;
- 09** ... by our work and projects on site we offer direct access to the cocoa producing regions and we are an important contact for relevant stakeholders and governments;
- 10** ... we make joint efforts visible.
