Relevance of Living Income

Guarantee Human Rights

- A **decent life**
- Absence of **slavery**
- The right to **fair remuneration**

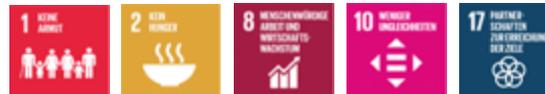

Universal Declaration
of Human Rights

UN Guiding Principles

OECD and FAO
Guidelines

Promote Sustainable Development

- Fight against **poverty** and **hunger**
- Elimination of **child labor and forced labor**
- Reduction of **inequalities** (including gender inequality)
- Protection of **natural resources**

Secure supply and quality of raw materials

- Supporting farmers to **invest in their farms** and **diversify their sources of income**
- Promoting agriculture as an attractive **employment sector** for young people

Living incomes and living wages are both about the income level that would enable a family to afford a decent standard of living.

A basic, decent standard of living!

What does it mean to be able to afford a decent standard of living?

The net annual income of a household, which comes from a variety of sources, is sufficient to cover the cost of a decent standard of living for a typical household in a particular place.

What does decency mean in this context?

Toilets: Unacceptable quality and acceptable

Kitchen: Adequate air circulation

How is living income different than poverty alleviation?

The concept goes a step beyond traditional notions of poverty alleviation that are concerned with basic subsistence and survival.

It puts a strong emphasis on the idea of **decency and earning enough income to live comfortably**.

Living Income is becoming a critical topic and discussions on this are fast gaining momentum and being prioritised.

Living wage is an individual concept.

A **worker** earns enough in a standard work week to enable his/her family to afford a decent standard of living.
